Additional Exercise 1 Solution

Task 1 - Your spreadsheet should be saved with the filename **hotels** and should look like:

	A	B	C	D	E	F	G
1	Holiday Costs						
2							
3	Hotel	Rate	Nights	Flights	Car Hire	Total	
4	The Bay	99.5	2	225.58	23	447.58	
5	Fountain	87.5	2	325.65	23	523.65	
6	Royale	89	2	400.5	23	601.5	
7	Sunnyside	92.5	3	375.85	34.5	687.85	
8	Riviera	98	3	299.99	34.5	628.49	
9	Average	93.3					
10							

The formula in cell F4 should be entered as:
=(B4*C4)+D4+E4

Check the formula has been copied down to cell F8 using the fill handle

Check the Average function has been entered correctly:
=AVERAGE(B4:B8)

Make sure all text and numbers have been typed in accurately
